Vice-President Regulatory Affairs
Burlington Environmental
2203 Airport Way South, Suite 400
Seattle, Washington 98134

Dear Mr. Stefani:

Enclosed please find EI Environmental Compliance Award Application forms you requested concerning EPA investigations at your facilities. I faxed signed copies for the Tacoma and Pier 91 facilities to Peter Ressler since we had recently completed inspections at those sites. Our response reflects only our activities and findings. I didn't sign the others because we either have not recently done an inspection or because there were violations noted during inspections.

Sincerely,

Michael F. Gearheard, Chief
Waste Management Branch

U.S. EPA-Region X
Chief, Waste Management Branch
Attn: Mr. Michael Gearheard
M/S HW-112
1200 Sixth Avenue
Seattle, WA 98101

Dear Mr. Gearheard:

Environmental Information Ltd., publishers of EI Digest, is initiating an annual award to recognize hazardous waste management facilities that have received no citations for hazardous waste management violations over the previous year (see attached letter and application forms). Because of our serious commitment to compliance, Burlington Environmental (formerly Chempro) plans to submit applications for the award for our facilities that qualify.

I have asked my staff to examine our files and identify those facilities that have no citations in 1991. They include the following facilities in your region:

- ▶ Georgetown Facility
- ▶ Kent Facility
- ▶ Pier 91 Facility
- ▶ Tacoma Facility
- ▶ Washougal Facility

Please sign the EPA/State Certification on the enclosed applications for those facilities that qualify according to your records and return the forms to Kate Tate at Burlington Environmental Inc., 2203 Airport Way South #400, Seattle, 98134. Your prompt attention will be appreciated as there is a deadline submittal of the applications. Thank you for your time.

Sincerely,

Dennis F. Stefani

~~Betty~~ - I faxed two pages to
Chempco last week (see attached).

We should mail this now back to
Dennis w/ short cover letter explaining:

- 1) signed for 2 facilities since we
did CEI's late in the year & found
no vials. (Jack Boller said that was
ok - I assumed he coordinated w/
Ecology.)
- 2) Can't sign for the rest because
either a. we didn't do an insp. or
b. There are vials.

Thanks -

ME

you can do it for my signature
OR you can sign - your
choice
